## ART PRESENTATION

As a part of our course, the task was appointed to us to visit a gallery in person. I decided to pay a visit to Gallery North.

- Gallery North was set in the year 1965 in New York (“gallerynorth: About”);
- Gallery North exhibits some of the finest samples of contemporary arts (“gallerynorth: About”);
- Ceramics, painting, sculpture, drawing, printmaking film and digital art are counted among the specific forms of fine arts exhibited in Gallery North (“gallerynorth: About”);
- Gallery North provides a wide range of educational programs, specifically the following: *ArTalks*, *Art Ventures*, *Art Abilities* and *Art Works* (“gallerynorth: About”).

In the slides that follow, I present to you some of the works included to the current exhibition at Gallery North called *Deck the Halls* (“gallerynorth: About”). However, most of the works you are about to see, were on the past exhibitions.
